**Delmarva Intercity Rail Study** - The Delaware Transit Corporation, in partnership with the Maryland Department of Transportation, has conducted a study of passenger rail service to downstate Delaware and Eastern Shore Maryland. The Delmarva Rail Study examined the potential for Amtrak service from points on the Northeast Corridor between Washington, D.C. and New York City to destinations in the resort area. Within Delaware this would be mainly on existing Norfolk Southern Railway track and possibly the Maryland and Delaware Railroad extending to Berlin, Maryland. At the request of Maryland DOT, the potential and cost of reestablishing rail service to Ocean City was also examined. For more information on the study and to send a public comment on the study, please visit the [Public Hearings](#) page on the HOME page of [DartFirststate.com](#). Public comments will be accepted until April 19.
